

# US Investment Grade Corporate Bond Fund

## E CLASS ACCUMULATION AND INCOME SHARES

### Fund Description

The US Investment Grade Corporate Bond Fund is an actively managed portfolio consisting primarily of high quality USD-denominated corporate bonds. The fund is diversified broadly across industries, issuers, and regions on the basis of PIMCO's top-down and bottom-up processes.

### Potential Investor Benefits

The fund offers diversification benefits and greater income potential relative to government bonds or domestic corporate strategies while seeking to retain many of the defensive features of government bonds.

### Potential Fund Advantage

The fund looks to benefit from PIMCO's investment process, which combines our global top-down views on the macroeconomic environment with independent bottom-up security analysis. PIMCO's investment team has the experience and depth to actively manage a broad and diversified opportunity set.

### Risk and Reward profile

**Credit and Default Risk:** A decline in the financial health of an issuer of a fixed income security can lead to an inability or unwillingness to repay a loan or meet a contractual obligation. This could cause the value of its bonds to fall or become worthless. Funds with high exposures to non-investment grade securities have a higher exposure to this risk. **Currency Risk:** Changes in exchange rates may cause the value of investments to decrease or increase. **Derivatives and Counterparty Risk:** The use of certain derivatives could result in the fund having a greater or more volatile exposure to the underlying assets and an increased exposure to counterparty risk. This may expose the fund to larger gains or losses associated with market movements or in relation to a trade counterparty being unable to meet its obligations. **Emerging Markets Risk:** Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk. Investments in these markets may expose the fund to larger gains or losses. **Liquidity Risk:** Difficult market conditions could result in certain securities becoming hard to sell at a desired time and price. **Interest Rate Risk:** Changes in interest rates will usually result in the values of bond and other debt instruments moving in the opposite direction (e.g. a rise in interest rates likely leads to fall in bond prices). **Mortgage Related and Other Asset Backed Securities Risks:** Mortgage or asset backed securities are subject to similar risks as other fixed income securities, and may also be subject to prepayment risk and higher levels of credit and liquidity risk.

ABOUT THE BENCHMARK

The fund is considered to be actively managed in reference to the below benchmark as further outlined in the prospectus and key investor information document.

Bloomberg U.S. Credit Index is an unmanaged index comprised of publicly issued U.S. corporate and specified non-U.S. debentures and secured notes that meet the specified maturity, liquidity, and quality requirements. To qualify, bonds must be SEC-registered. This index was formerly known as the Bloomberg Credit Investment Grade Index. It is not possible to invest directly in an unmanaged index.

Unless otherwise stated in the prospectus or in the relevant key investor information document, the Fund is not managed against a particular benchmark or index, and any reference to a particular benchmark or index in this factsheet is made solely for risk or performance comparison purposes.<sup>‡</sup>

**Marketing Communication**

This is a marketing communication. This is not a contractually binding document and its issuance is not mandated under any law or regulation of the European Union or the United Kingdom. This marketing communication does not include sufficient detail to enable the recipient to make an informed investment decision. Please refer to the Prospectus of the UCITS and to the KIID before making any final investment decisions.

<sup>1</sup> Differences in the Fund's performance versus the index and related attribution information with respect to particular categories of securities or individual positions may be attributable, in part, to differences in the pricing methodologies used by the Fund and the index. <sup>2</sup> PIMCO calculates a Fund's Estimated Yield to Maturity by averaging the yield to maturity of each security held in the Fund on a market weighted basis. PIMCO sources each security's yield to maturity from PIMCO's Portfolio Analytics database. When not available in PIMCO's Portfolio Analytics database, PIMCO sources the security's yield to maturity from Bloomberg. When not available in either database, PIMCO will assign a yield to maturity for that security from a PIMCO matrix based on prior data. The source data used in such circumstances is a static metric and PIMCO makes no representation as to the accuracy of the data for the purposes of calculating the Estimated Yield to Maturity. The Estimated Yield to Maturity is provided for illustrative purposes only and should not be relied upon as a primary basis for an investment decision and should not be interpreted as a guarantee or prediction of future performance of the Fund or the likely returns of any investment. <sup>3</sup> Annualised Distribution Yield is as of last quarter ending 10/31/2023. <sup>4</sup> Where permitted by the investment guidelines stated in the portfolios offering documents, "other" may include exposure to, convertibles, preferred, common stock, equity-related securities, and Yankee bonds. <sup>5</sup> Net Other Short Duration Instruments includes securities and other instruments (except instruments tied to emerging markets by country of risk) with an effective duration less than one year and rated investment grade or higher or, if unrated, determined by PIMCO to be of comparable quality, commingled liquidity funds, uninvested cash, interest receivables, net unsettled trades, broker money, short duration derivatives and derivatives offsets. With respect to certain categories of short duration securities, the Adviser reserves the discretion to require a minimum credit rating higher than investment grade for inclusion in this category. Derivatives Offsets includes offsets associated with investments in futures, swaps and other derivatives. Such offsets may be taken at the notional value of the derivative position.

The KIIDs and KIDs can be obtained from [www.fundinfo.com](http://www.fundinfo.com) and are available in one of the official languages of each of the EU Member States into which each sub-fund has been notified for marketing under the Directive 2009/65/EC (the UCITS Directive). In addition, a summary of investor rights is available from [www.pimco.com](http://www.pimco.com). The summary is available in English. The sub-funds of the Company are currently notified for marketing into a number of EU Member States under the UCITS Directive. PIMCO Global Advisors (Ireland) Limited can terminate such notifications for any share class and/or sub-fund of the Company at any time using the process contained in Article 93a of the UCITS Directive.

**PERFORMANCE AND FEES**

**Past performance is not a guarantee or a reliable indicator of future results.** The "gross of fees" performance figures, if included, are presented before management fees and custodial fees, but do reflect commissions, other expenses and reinvestment of earnings. The "net of fees" performance figures reflect the deduction of ongoing charges. All periods longer than one year are annualized. Investments made by a Fund and the results achieved by a Fund are not expected to be the same as those made by any other PIMCO-advised Fund, including those with a similar name, investment objective or policies. A new or smaller Fund's performance may not represent how the Fund is expected to or may perform in the long-term. New Funds have limited operating histories for investors to evaluate and new and smaller Funds may not attract sufficient assets to achieve investment and trading efficiencies. A Fund may be forced to sell a comparatively large portion of its portfolio to meet significant shareholder redemptions for cash, or hold a comparatively large portion of its portfolio in cash due to significant share purchases for cash, in each case when the Fund otherwise would not seek to do so, which may adversely affect performance.

**PIMCO GIS Funds:** Global Investors Series plc is an umbrella type open-ended investment company with variable capital and is incorporated with limited liability under the laws of Ireland with registered number 276928. The information is not for use within any country or with respect to any person(s) where such use could constitute a violation of the applicable law. The information contained in this communication is intended to supplement information contained in the prospectus for this Fund and must be read in conjunction therewith. Investors should consider the investment objectives, risks, charges and expenses of these Funds carefully before investing. This and other information is contained in the Fund's prospectus. Please read the prospectus carefully before you invest or send money. Past performance is not a guarantee or a reliable indicator of future results and no guarantee is being made that similar returns will be achieved in the future. Returns are net of fees and other expenses and include reinvestment of dividends. The performance data represents past performance and investment return and principal value will fluctuate so that the PIMCO GIS Funds shares, when redeemed, may be worth more or less than the original cost. Potential differences in performance figures are due to rounding. The Fund may invest in non-U.S. or non-Eurozone securities which involves potentially higher risks including non-U.S. or non-Euro currency fluctuations and political or economic uncertainty.
